

## Information for Carers – How can you help working parents, increase your business and improve goodwill amongst your existing parents?

### About the Scheme

The childcare voucher scheme is a Government initiative to help working parents with their childcare costs. The Government gives tax and National Insurance savings on up to £243 per month or £55 per week, in childcare vouchers for each working parent. Childcare vouchers are only available if you, as the childcare provider, are registered and prepared to receive voucher payment.

Registered and approved childcare providers include:

- Registered childminders, nurseries and play schemes;
- Out-of-hours school clubs run by schools or local authorities;
- Childcare schemes run by school governing bodies under the 'extended schools' scheme;
- Childcare given in the child's own home by a person approved to care for your child. Childcare provided by a relative of the child is not approved.

If you are not currently eligible to receive vouchers, full information on the approval process is available on the following website [www.childcareapprovalscheme.co.uk](http://www.childcareapprovalscheme.co.uk).
